

---

**Title** Upgrading FaxPress Servers and Clients to FaxPress Plus 5.x via CD

---

**Warning** Current server version must be at 4.1.1 before upgrading to 5.x.

In the instructions below, D:\ is the assumed CD-ROM drive letter, although your CD-ROM drive letter may be different. Substitute 'D' with your drive letter, if necessary.

---

**Before You Start...**

If you are installing FaxPress Plus 5.0 in an existing FaxPress Plus environment:

- All FaxPress Plus servers must be upgraded to version 5.0 before upgrading the FaxPress Plus clients.
  - Once upgraded to version 5.0, FaxPress Plus servers and clients cannot be reverted to an older version.
  - FaxPress Plus 5.0 clients cannot logon to a 4.1.1 or older FaxPress Plus server.
- 

**Deploy the Server Upgrade**

If you are currently at server version 3.x, please read **Upgrading FPP3.x to 4.0.pdf** located at <ftp://ftp.castelle.com/Pub/Support/FaxPressPlus/4.1.1/>

If you are currently at server version 4.0, please read **Upgrading FPP4.0.x to 4.1.1.pdf** located at <ftp://ftp.castelle.com/Pub/Support/FaxPressPlus/4.1.1/>

If you are currently at server version 4.1.1:

1. Insert CD into CD-ROM drive and double-click **Update50\_0713\_1630.exe** located in **D:\Server**.
  2. Verify the update is successful by opening Internet Explorer from the server and connect to **https://localhost** (if SSL has been disabled, **http://localhost**). Login, go to **System & Diagnostic>System Information**, and verify that the FaxPress plus Service Module indicates **FPP\_50\_XXXXXXXX\_XXXX**.
- 

**Deploy the Client Upgrade**

1. Uninstall the FaxPress Plus client from workstation(s).
  2. Install the new FaxPress Plus Client 5.0 located on the FaxPress Plus 5.0 CD-ROM.
- 

**Deploy MSI with Group Policy**

Please read **Deploying MSI packages with Group Policy.pdf** located at <ftp://ftp.castelle.com/Pub/Support/FaxPressPlus/5.0/Client/>

---

**Deploy Exchange 2007 Connector**

Install Castelle FaxPress Exchange Server 2007 Connector by inserting CD into CD-ROM drive of the Exchange 2007 mail server and double-click **Castelle FaxPress Exchange Server 2007 Connector.msi** located in **D:\Exchange2007Connector**

**Step-by-step instruction is available in the document Installing on Exchange Server 2007.doc, located in D:\Exchange2007Connector.**

---

**Deploy the Exchange 2000/2003 Connector**

1. Install new FaxPress Plus Client 5.0 by inserting CD into CD-ROM drive and double-click **Install.exe** located in **D:\Client**.
-

2. During the install process select **Administrator Installation**.
3. Select **Email Gateways & Connectors** to install the 2000/2003 Exchange Connector.

---
