

FaxPress Integration with T-1 and Atran Atlas 550

For more info:
 On what cards you will need for your application and programming of the ADTRAN 550 please call ADTRAN at 1-800-923-8726 or www.adtran.com

Pricing:
 Adtran Atlas 550 List Price \$2995.00
 Adtran Quad (4 port) FXS Card List Price \$795.00
 Adtran Octal (8 port) FXS Card \$1295.00
 Please contact Adtran for current pricing as it is subject to change without notice

NOTE: The major difference between the ADTRAN 600E and the ADTRAN 550 is that the 600E only provides dedicated DID trunks, which will have to go a FP 7500 DID model or a third party interface and then to the FaxPress server. The 550 model will take the T-1 and then through a quad fxs card or an octal card send the DID numbers out using DTMF tones. No third party DID interface is required.
